Our proprietary GROWTH Framework™ provides the foundation for a suite of experiences tailored to transform educators' perceptions and capabilities in teaching math.

It's time to change how educators prepare to teach mathematics.

MathTrack's flexible pathways are asynchronous, comprehensive, and designed to help all educators develop mastery of teaching mathematics.

Professional Development

\$2,500/school

Coursework that includes exemplars, strategies and prompts.

Includes one Train the Trainer participant!

Teacher Apprenticeship

\$5,000/year

Apprenticeship-based program for those without a Bachelor's Degree.

~2 years depending on credits conferred.

Transition to Teaching

\$5,000/educator

Alternative certification program for those with a Bachelor's Degree but no license.

~12 months.

"This is a life-changing opportunity for me. I wasn't sure I could teach math, but with MathTrack I'm now leading all middle school classes in my school."

— Erica Baker, Educator
